So far I have played only 20 minutes of the game, but I enjoy its so far. Nothing like a good puzzle to challenge the mind. I

enjoy the colors and the amazing detail in this type of game. I would like to say thank you Life Jumb DT and Afriagames. A+ <https://www.youtube.com/watch?v=lxdBNUoJRE>. But not bad. Killed an hour.. A quality game beat it in time shown and will probably return to play it again at a later date. All puzzles give stisfaction after you beat them and it was fun to figure them out. I would say that the only downside is that there isnt more, so more levels would be appreciated. other than that 9.9/9. So far I have played only 20 minutes of the game, but I enjoy its so far.
